45.03%

43.02%

11.95%

4.04%

Weaknesses:

- Our GDP per capital is low
- Our inflation is high
- Political and economic freedom corruption

Strengths:

- Natural resources
- Agriculture

Recommendations:

- Trade with different kind of countries
- More employment

Executive Summary

- In this project I learn that Ethiopia have different kind of weakness and strength, But in the economy Ethiopia is becoming a developed country but not the income level. And to improve that they should hire more people and also decrease the amount of corruption because the GDP per capita is bad and this makes the people in danger.
